LETTER: We need the Guardian Angels

Tuesday, June 30, 2009

To the Editor: On Thursday, I attended an important meeting about helping Lorain become safe again. There was a nice crowd but not enough people attended. I also realize there was a vigil for the lives lost, but where were the rest of the residents?

The Guardian Angels came in to speak with us about bringing safety back to Lorain. There were only three people from Long Avenue representing that area, and that was sad. More people live on that street. Where were you?

There is crime running rampant and we need all the help we can get and a better turnout would have helped. Just because you don't have trouble now, believe me it's coming. Then what will you do?

We just lost two young lives who could have grown up to be positive role models for the children coming behind them. It was all senseless. We need the Guardian Angels here to help the police bring some kind of stability back to Lorain. Please welcome them in. They might be our last chance.

Patricia M. Blakely, Lorain
